US vs. USSR ideologies

Capitalism	Communism
• Free market • Free trade • Private property	• State-owned resources • State-controlled economy
• Economic freedom	• Economic equality
• Liberal democracy • Competing political parties • Regular elections	• Strong authoritarian leadership • Stability/order

Rivalry for influence: Marshall Plan 1948

- US financial aid to rebuild euro economies after ww2
- Objectives
 - Foster develop of rich capitalist democracy
 - Secure gratitude/alignment with US ideology
- Long term success
 - Exceeded expectations in effectiveness
 - Recipients often enduring allies of US

Soviet response: COMECON 1949

- Council for mutual economic assistance
- Focus on resource and tech sharing among allies
- Often extracted more resources than provided (in e.eur)
- Econ disparities during cold war
 - w.euro econ prospered more than eastern bloc countries

USSR and US foreign aid in africa/asia

- Soviet econ and mili assistance to anti-colonial movment
 - Angola/vietnam/etc.
 - Portray communism as anti-imperialist ideology
- US global assistance
 - Aided nations
 - Anti-imperialists and imperialists

Non-aligned movement

- Many not willing to choose either
- Composition of movement
 - Diverse group of states with varied opinion

- But agreed on core principles
 - Mutual respect for land integrity/sovereignty
 - Mutual non-aggression/non-interference in domestic affairs
 - Equality/mutual benefit
 - Peaceful co-existence
- Mostly newly independent nations from colonial rule
- Except: yugoslavia
 - Josip broz tito: communist leader
 - Reject soviet control despite communist
- Leaders: sukarno (indonesia)
 - Leader of independence movement against dutch
 - First president of indonesia
 - Challenges
 - Diverse/populus with thousands of islands
 - Difficulty in centralizing control
 - "guided democracy" - balance power of diverse groups
 - e.g. communists/islamists/military
- Leaders: kwame nkrumah (ghana)
 - Led ghana independence movement
 - First prime minister
 - Pan-africanism
 - Encourage unity/coop among african nations
 - Goals: prosperity/stability across continent
 - Rejection of cold war dichotomy - dismissed both superpower ideas
- Leaders: jawaharlal
- (india)
 - First prime minister of independent india
 - Leader of independence movement
 - Distinction from other leaders (Many criticized for authoritarian rule)
 - Advocate for multi-party democracy - regular democratic elections

8.3: Effects of Cold War (governance)

Containment

- US policy of containment: prevent global spread of communism
- 1947: harry truman presents Truman Doctrine
 - US provide mili/financial aid to countries resisting communism
 - Soldiers if necessary

Alliances:

- NATO 1949
 - North atlantic treaty organization
 - "collective security" against "communist aggression"
 - USA, canada, most w. euro nations
 - Article 5: atk one member = atk all
 - Led by US
- Warsaw Pact 1955
 - Eastern bloc

- Structure similar to NATO (article 4 literally = article 5)
- Led by USSR

Nuclear proliferation

- Atomic bombs - 1945, 1949
- Arms race begin (dundundun)
 - 1953: both devlp hydrogen bomb
 - x100 power than earlier atomic bombs
- Advanced launch systems
 - Intercontinental ballistic missiles (ICBM) and submarine-launched ballistic missiles (SLBM)
 - Nuclear weapon extended range
 - Enable "second-strike" capabilities
 - Principle of deterrence
 - Prevent conflict thru mili strength
 - Cold war arsenals: tens of thousands of nuclear warheads
 - Ability to destroy everything basically
 - Mutual assured destruction (MAD literally)
 - No winners in nuclear war, only nuclear apocalypse

Proxy War

- Indirect conflict vis supported combatants
- Cold war context
 - US and ussr backed different sides of regional conflicts around world
 - Aim: spread influence without direct conflict
- Dynamics
 - Sometimes no direct involvement
 - Sometimes only one direct
 - Opposing superpower provide support to adversary
- No.1: Korean War (1950-53)
 - 1950: n.korea invade s.korea with soviet weapon/funding
 - n.korea dominate in early war, prompt US (and UN) intervention
 - US POV: truman applies containment policy/truman doctrine in asia
 - China:
 - Significantly involved in conflict: aid n.korea
 - 1949: communist
 - 1953: armistice establish de-militarized zone (DMZ)
 - Near original 38th parallel
 - Impacts
 - One of deadliest cold war conflicts
 - Around 3 mil death, mostly civilians
 - Never officially ended (they still looking across at each other...
- No. 2: Vietnam
 - Pre ww2:
 - 1887-1954: Colonial french indochina
 - 1940-45: occupy by japan in ww2
 - Viet minh led by ho chi minh
 - Fought both japanese and french forces
 - 1945: declares independence
 - French sought to regain colony

- 1946-54: first indochina war
 - USSR aid viet minh
 - US backs french (fighting communists)
- 1954: french withdrawal
- Resulting division
 - North: ho chi minh, communist
 - South: ngo dinh diem, anti-communist
- 1955-75: second indochina war (aka vietnam war)
 - 1955: US ramps up support to south
 - Mili/financial aid to combat communism
 - Motivation: domino theory
 - Fear of SE asia falling under communism (potential spread to thailand, cambodia)
 - 1963: significant escalation of US involvement
 - 2.7 mil US soldiers participate
 - 1975: communist victory/unification
- No.3: ogaden war (1977-78) - africa
 - Somalia vs. ethiopia
 - Ethiopia initially led by haile salassie
 - Initially part of non-aligned movement
 - More tied with US - anti-communist
 - 1974: overthrow of salassie by Drg
 - Communist mili. junta
 - Led by Mengitsu haile mariam
 - Ethiopia now communist, allied with ussr
 - Somalia's alignment
 - Initially closer to soviets
 - Received soviet funding/mili aid
 - Increase US support overtime
 - 1977: somalia atk communist ethiopia
 - Soviet response: withdraw support from somalia
 - US shift support
 - More friendly with somalia due to anti-communist actions
 - 1987: ethiopia won war
- No.4: Sandinista-Contra conflict (1979-90) - latin america
 - 1979: sandinista national liberation front (FSLN) take power in nicaragua
 - Establish socialist, nationalist gov't
 - Reagan doctrine: support anti-communist insurgents
 - US view on regime: soviet-cuban proxy despite minimal soviet involvement
 - US arms/trains contras (anti-sandinistas)
 - Aim to disrupt sandinsta gov't, prevent spread of communism
 - Impact of nicaragua: tens of thousands deaths, econ dmg

8.4: Spread of Communism after 1900

China: internal tension/japanese aggression

- 1912: Qing ends, republic of china created
 - Sun yat-sen/creation of nationalist party (KMT)
- 1921: communist party of china formed

- 1927: KMT led by Chiang Kai Shek (蒋介石)
 - Goal = purge communism
- Onset of chinese civil war (27-37, 45-49)
- Communist party initially small
 - Large support from peasant from land reforms
- 1937: japanese invasion
 - Temporary united front

Civil War continues (1945-49)

- Resume after ww2
- US provide substantial money to KMT
 - Aim for containment of communism
- Communist led by Mao Zedong
 - Soviet assisted, but less than US to KMT
 - Advantage: more popular support
- 1949: communist victory, establishment of peoples republic of china (PRC)

PRC COMPARISON with USSR: land reform and 5-year plan

- Land redistribution to peasants (like Lenin)
- Implementation of 5-year plans (like Stalin)
- First 5-year plan (1953-57)
 - Successful industrial base establishment
 - Increased agricultural output
- Second (58-62)
 - Rise in industrial production
 - Decline in agricultural production
- Great Leap Forward 大跃进
 - Collectivization of agriculture (literally same as stalin)
 - Reduction of agricultural workforce for industry
 - Consecutive years of bad weather
 - Widespread famine
 - 1961: Gov't ends great leap forward

Land reforms

- Asia
 - China: redistribution of land to peasants
 - Vietnam: similar goals
 - Ho chi minh's platform
 - During war of independence against france (first indochina war)
- Africa: ethiopian Derg
 - Derg communist regime (1974-87) led by Mengitsu haile mariam
 - Nationalization of all agricultural land
 - Granting "possessing rights" of land for peasants
 - Seizure of land from ethiopian church (SIMILARITY with russian bolshevik revolution 1917)
- Latin america
 - Mexico: lazaro cardenas (1934-40)
 - Zapatista-inspired redistribution to peasants (7.4)
 - Sandinista gov't in nicaragua 1979-90
 - Reversing inequality/exploitation
 - Established cooperatives: shared ownership/collectivization

(class notes on general cold war)

- Stalin ordered communization of occupied countries
 - Amount loss suffered should determine amount gained
 - Usa 400k death, cities intact
 - Ussr 20 million death, cities dead
 - Therefore ussr should get more territory
 - Arrested a lot of not communist politicians accused of "terrorism"
 - Slaughter 20k in bulgaria (ppl against his electing)
 - Imposition of communist dictatorship in hungary
 - British/american arrested
- Hungarian revolution
 - Cia...?
- Prague spring 1968

- *Some movements use violence to achieve political aims*

Al Qaeda (1988-now)

- Militant Sunni jihadist group (jihad = "holy war")
- Founded by Osama bin Laden
- Aim to unite Muslim world under caliphate
 1. Kill civilians in massive attack, provoke US and allies to attack Muslim countries
 2. Incite local resistance to occupying forces
 3. Expand conflict, create war of attrition
 4. Franchises of al-Qaeda around Muslim world
 5. US/global economic collapse, global jihad continues
- Known for sponsoring mass murder
 - 9/11 attack on World Trade Center

8.8: End of Cold War

(governance)

Advances in US mili tech by 1980s

- Stealth tech
 - Evade radar detection
 - Advantage over soviet mili
- Precision-guided missiles with laser tech
 - Increased accuracy

USSR falls behind in arms race

- Dvlp similar tech to US
 - Lagging in arms race by 1980s
- Advanced mili tech expensive - financial strain for less wealthy ussr
- USA as worlds richest - less constraints

Strategic Defense Initiative 1984

- President ronald reagan
- Extremely ambitious
 - Plan for anti-ballistic defense system in outer space
 - Laser guidance to intercept/destroy enemy missiles
- Never fully worked but
 - Soviet pressure to match
 - USSR econ unable to invest in comparative tech

Soviet invasion of afghanistan (1979-89)

- Communist gov't
 - Unpopularity with conservative/religious muslims
 - Resisted due to secularization efforts
- Soviet invasion to support afghan communist regime
 - Similar to US involvement in vietnam
 - Resistance intensify
- Muhahideen - islamist fighters
 - Used local terrain to advantage
 - Employed guerrilla tactics against soviets
- US supplied mujahideen with weapons - stinger missiles to shoot down aircraft
- Costly - added soviet budget strain
- Condemnation by int'l community
 - Loss of prestige, even among non-aligned countries
- Unpopularity of war with soviet citizen - eroded faith in leadership

Public discontent in communist countries

- Long-standing reliance on repression by ussr
- Military threat enforce loyalty from e. euro satellite countries

 - Poland, hungary, e. germany, czechoslovakia, bulgaria, romania
- 1991: ussr dissolved into 15 separate republics
 - Econ weakness, political discontent, failed invasion of afghan, inability to match US mili tech
- End of cold war after around 50 years
 - US = only superpower

Unit 9: Globalization (c. 1900–present)

9.1 Advances in Technology and Exchange After 1900

Key Ideas:

- Scientific advancements and new technologies led to increased life expectancy and economic productivity.

Important Developments:

- **Medical Advancements:** Polio vaccine, antibiotics (penicillin), artificial heart, birth control pill
- **Energy Technologies:** Nuclear power, oil, natural gas, solar energy
- **Communication Technology:** Internet, mobile phones, radio, television
- **Transportation:** Airplanes, container shipping, high-speed rail

Historical Impact:

- Enabled global population growth
- Sped up economic globalization

- Increased cultural diffusion

9.2 Technological Advances and Limitations After 1900: Disease

Key Concepts:

- Medical advances increased survival, but some diseases spread more quickly due to globalization.

Diseases:

- **New Epidemics:** HIV/AIDS, Ebola, COVID-19
- **Lifestyle-Related Diseases:** Diabetes, heart disease, Alzheimer's
- **Poverty-Associated Diseases:** Tuberculosis, malaria, cholera

Impact:

- International organizations (e.g., WHO) began coordinated global health responses.
- Global inequalities in health persisted.

9.3 Technological Advances: Debates About the Environment After 1900

Environmental Issues:

- **Climate Change**
- **Deforestation**
- **Air/Water Pollution**
- **Desertification**
- **Loss of Biodiversity**

Responses:

- **Green Revolution:** Increased agricultural output using GMO seeds, pesticides, and irrigation.
- **Environmental Movements:** Earth Day (1970), Greenpeace
- **International Agreements:** Kyoto Protocol (1997), Paris Agreement (2015)

Significance:

- Sparked debate over development vs. sustainability
- Created tension between developed and developing nations

9.4 Economic Globalization

Developments:

- Rise of **multinational corporations**: Nestlé, Microsoft, Toyota
- Expansion of **free-market** policies (Thatcher, Reagan, Deng Xiaoping)
- Creation of **economic institutions**: WTO, IMF, World Bank
- **Outsourcing** and global labor migration
- **Knowledge economies** emerged (U.S., Japan, South Korea)

Criticism:

- Widened global inequality
- Exploitation of labor in developing countries

9.5 Calls for Reform and Responses After 1900

Reform Movements:

- **Global feminism** (e.g., UN Convention on Elimination of All Forms of Discrimination Against Women)
- **Civil rights movements**: U.S. Civil Rights Movement, Anti-apartheid movement (South Africa)
- **Liberation theology** (Latin America)

Government Responses:

- **Truth and reconciliation commissions** (e.g., post-apartheid South Africa)
- **Legal reforms** and expanding suffrage (e.g., women's vote in Saudi Arabia in 2015)

9.6 Global Culture After 1900

Key Elements:

- **Spread of pop culture**: Bollywood, K-pop, Hollywood, World Cup, Olympics
- **Global brands**: McDonald's, Coca-Cola, Nike
- **Music & Arts**: Reggae, hip-hop, anime
- **Global languages**: English dominance

Consequences:

- Cultural homogenization
- Tension between globalization and local traditions

9.7 Resistance to Globalization After 1900

Examples of Resistance:

- **Anti-globalization movements** (e.g., protests at World Trade Organization summits)
- **Religious fundamentalism** (e.g., Al-Qaeda's reaction to Western influence)
- **Nationalist movements** and protectionism
- **Brexit** and anti-immigrant policies

Key Theme:

- Tensions between local identity and global integration

9.8 Institutions Developing in a Globalized World

Global Institutions:

- **United Nations (UN)**
- **International Monetary Fund (IMF)**
- **World Bank**
- **World Trade Organization (WTO)**
- **European Union (EU)** and **NAFTA/USMCA**

Non-Governmental Organizations (NGOs):

- Amnesty International, Doctors Without Borders, Red Cross

Function:

- Promote development, peace, trade, and humanitarian aid

9.9 Continuity and Change in a Globalized World

Continuities:

- Nationalism and resistance to outside influence
- Inequality in access to education, wealth, and healthcare

Changes:

- Rise of international cooperation
- Increased global awareness (e.g., climate change, human rights)
- Shift from industrial to knowledge-based economies
